Each online course takes about one hour to complete. You can finish it in one session or save your progress and return later. Please note that courses that you may have taken before the move to the new Sportlomo system may not be recorded accurately. Swim Canada is working on updating official's credentials in the new system.

To access instructor-led clinics from other clubs, simply click on the blue '**Clinics**' button in Sportlomo. You can register for online and in-person courses hosted by other clubs.
